

CONVERSAS

Rotterdam

#71 to #80

28.09-23.11.2016

Conversas is a series of weekly informal meetings made so that we can get to know and discuss projects and interests. During the event, three Conversadores (those who talk at Conversas) bring something to share with the gathered group, for thirty minutes each. As the title suggests itself, Conversas (Conversations in Portuguese) offer an equal set up from which all can benefit. Conversas is a project initiated in Lisbon by Constança Saraiva and Mafalda Fernandes, in 2012. Nowadays, it's a project of many people and cities.

Organised by Harrie Bots & Oana Clîţan

JOEY RAMONE Intern

Conversas Rotterdam is an outstanding platform connecting people with different passions. A very *friendly environment* encourages both “conversadores” and the audience to freely investigate a deeper sense of one’s interest. The 8th series was unique thanks to a co-operation with an art gallery space that particularly influenced the overall positive atmosphere. JOEY RAMONE and Conversas Rotterdam nicely affirmed that there are no limits for interdisciplinary collaboration in any perspective.
